Principles: Designing for Testability

Patterns: Dependency Injection

Out of class learning activities

- Read:
    - Read the Wikipedia article on Dependency Injection:

- https://en.wikipedia.org/wiki/Dependency_injection
    - If you will be doing the in-class exercise in Java, you will be using a dependency injection library named Google Guice. In preparation for that, read the "Motivation" and "Getting Started" sections of the Google Guice User's Guide:

- https://github.com/google/guice/wiki
    - If you will be doing the in-class exercise in Typescript, you will be using a dependency injection library named Inversify. In preparation for that, read all 5 sections of "The Basics" on the Inversify home page:

        - http://inversify.io/
